## Vaccine Adverse Event Reporting System

- a program for vaccine safety  
co-managed by the US CDC & FDA

- 1) If you or a loved one has been injured, has had any severity of side effects, or has died as a suspected result of any vaccination, your doctor is required by law to report this to VAERS. Most doctors don't even know about this law.<sup>1</sup>
- 2) You can also file a report to VAERS yourself. CDC verifies all reports.
- 3) The reporting process takes some time and is involved, but it is important to make sure it gets done, even for relatively minor complaints, but definitely for serious ones.
- 4) It is estimated that the adverse events that are reported are **only 1% - 10%** of the actual adverse events occurring.<sup>2</sup>
- 5) For **Covid** inoculations, here are the latest reported numbers of **verified deaths** and **some** of the **injuries** from these shots, as of **October 29th, 2021**.<sup>3</sup>

Deaths	18,078	
Hospitalizations	88,910	
Urgent Care	95,954	Total Reports:
Doctor Office Visits	133,973	856,917
Anaphylaxis	7,844	
Bell's Palsy	10,721	
Life Threatening	20,111	
Permanently Disabled	28,112	
Severe Allergic Reaction	32,851	
Miscarriages	2,786	
Heart Attacks	8,878	
Myocarditis/Pericarditis	11,449	
Shingles	10,124
